EXPERIENCE

-
- **Weecom — Frontend Developer Intern** Sep 2025 – Present
Remote
 - Shipped production features end-to-end in React + TypeScript, taking tasks from requirements to final deployment.
 - Owned implementation of complex workflows with strong validation (Zod) and reliable error handling.
 - Integrated REST APIs and ensured correct handling of edge cases, loading states, and empty/error scenarios.
 - Improved performance and stability of data-heavy screens by reducing unnecessary re-renders and fixing UI bottlenecks.
 - Collaborated with backend and product teams to debug issues quickly and deliver features under tight timelines.

PROJECTS

-
- **Askly (Live) | (GitHub):**
 - Developed an anonymous interaction platform with secure message sharing, real-time inbox updates, and link-based profiles.
 - Integrated Resend for email verification and transactional flows, improving account security and reducing onboarding drop-offs.
 - Built animated, responsive UI with shadcn, TailwindCSS, and Motion; added user analytics and message insights using Recharts.
 - **Tech Stack::**
Next.js 15, TypeScript, TailwindCSS, shadcn/ui, Zod, React Hook Form, Resend, MongoDB, Mongoose, Recharts, Motion, Vercel
-
- **KIHEAT Ranklist Portal (Live) | (GitHub):**
 - Built a full-stack web app to auto-generate student ranklists and analyze academic results visually, replacing manual PDF workflows.
 - Integrated interactive charts, CGPA insights, and filters using React, Chart.js, Recharts, and TanStack Query.
 - Achieved 90+ Lighthouse SEO and performance scores using Vite, React Helmet, and Tailwind CSS.
 - **Tech Stack::**
React, Redux Toolkit, TailwindCSS, Node.js, Express.js, MongoDB, Mongoose, Vercel, Render
-

**Note: Backend services may take 2-3 minutes to wake up due to free-tier hosting limitations. Please allow time for the server to start before using live features.*

COURSES & ACHIEVEMENTS

-
- **3rd Place, Build-a-thon – Tech Samaroh 5.0, TIPS Dwarka:**
 - Created an AI-powered chatbot trained on website-specific data to enhance user interaction.
 - Ranked 3rd among competitive teams; showcased innovation and teamwork using React, Aceternity UI, Gemini API.
 - **Full-Stack Web Development – Hitesh Choudhary (Udemy):**
 - Covered full-stack concepts: HTML, CSS, JavaScript, Node.js, React, Express, MongoDB, authentication, deployment, Docker and more.
 - **Scribbler Streak Challenge:**
 - Completed a weekly consistency challenge focused on writing, learning, and building discipline over time.

SKILLS SUMMARY

-
- **Languages:** JavaScript, Typescript
 - **Frontend Frameworks & Libraries:** Tailwind CSS, ReactJS, React Query, Zustand
 - **Backend Frameworks & Libraries:** Node.js, Express.js, Next.js
 - **Databases:** MongoDB, Mongoose
 - **Tools & Platforms:** Git, GitHub, Postman, Vercel

EDUCATION

-
- **Guru Gobind Singh Indraprastha University** New Delhi, India
Bachelor of Computer Applications ; CGPA: 8.54
Courses: Object oriented programming, Networking, DBMS
Sep 2023 – Jun 2026
 - **Govt Boys Sr. Sec School** Bindapur, New Delhi
12th Grade, Science Stream: 76%
2022 – 2023
